Addendum Issue Date: Feb 26, 2019
ITQ Closing Date: Before 3:00pm March 20, 2019

Information for Contractors: The following information is provided to potential Contractors in response to questions raised. This Addendum #2 contains 1 page.

Update #1:

The significant snowfall received in Cumberland recently has made site access and line visibility less than ideal. To provide an opportunity for contractors to visit the site in better conditions, **UROC will be extending the ITQ closing date to 3:00pm, March 20, 2019.**

All Addenda will become part of the Contract documents.
